3/15/2020

Dear Parents,

We are all well aware that the situation surrounding Covid19 is ever changing as we gain more insight and information from officials. We believe that it is important for each of our families to make wise decisions concerning the health and safety of our students. At this time the governor is advising that schools and school districts make decisions that best fit their community. From the day Crestline opened, we opened with the philosophy of “Familia Ante Omnia” or “Family Above All.” We truly believe that YOUR family comes first. Inasmuch, if you feel that it is important for your family to stay home during this time, we understand this decision and will support it and your child’s education to the best of our ability.

At this time our plan is to keep our doors open in the 4 days we have remaining until spring break. However, we will also be reassessing this decision every day. We are putting a major emphasis on cleaning and hand washing. We will be working hard to wrap up the necessary instruction for the end of our 3rd quarter and will be preparing for what fourth quarter will look like after spring break. We have already begun to implement and train with software that could allow us to turn our classrooms into virtual classrooms if needed along the way.

As this is a fluid situation, our response will also remain fluid. We recognize that this is a scary time for many. We even know that there will be some families who have to make drastic changes in their lives during this time. If you or your family has a need that we can help meet at this or any time, please let us know so that we can do our best to help this community that we love so much.

Please don’t hesitate to reach out to us with any questions or concerns.

Sincerely,

Crestline Academy Administration
